Comprehensive Review of Pain Medicine

August 8-12, 2016

The Fluno Center for Executive Education
Madison, Wisconsin

Course Director:
Nalini Sehgal, MD

Jointly Provided By
University of Wisconsin School of Medicine and Public Health
- Department of Orthopedics and Rehabilitation
- Department of Anesthesiology
- Department of Family Medicine and Community Health
- Department of Neurology
- Office of Continuing Professional Development in Medicine and Public Health

University of Wisconsin-Madison School of Nursing, Continuing Education in Nursing

University of Wisconsin-Madison School of Pharmacy, Division of Pharmacy Professional Development
Statement of Need
Prevention, assessment and treatment of pain pose a major challenge for 21st century health care providers and health systems. Pain is common, inflicts a heavy physical, emotional and social burden, is associated with significant psychiatric comorbidity, and is a leading cause of disability and lost work days. The prevalence and treatment costs for chronic pain alone are greater than those for diabetes, heart disease, and cancer combined. More than 100 million Americans live with chronic pain, with the majority experiencing inadequately pain relief, reduced quality of life and treatment dissatisfaction. Failure to comprehensively assess and manage pain patients leads to suboptimal outcomes: undertreatment, unnecessary treatments, opioid overdose/abuse and overdose deaths, and overall patient and provider dissatisfaction. Inadequate pain treatments are also associated with prolonged hospital stays, increased morbidity, higher readmission rates, and overall higher health care costs. Very few clinicians express confidence in their ability to assess and manage patients with pain, especially those with chronic pain and on long term opioid analogues, or those with coexisting conditions. Primary care clinicians find managing chronic pain patients as stressful, report insuffcient training in managing of opioid therapy, and express concerns about opioid misuse and addiction. Yet, the majority of pain patients are treated in primary care settings with few having access to specialty care. It is noteworthy that although opioid prescribing rates have escalated nationwide, these rates increased more for primary care (family practice and internal medicine) than other specialties. In its report on improving pain care and its outcomes, the Institute of Medicine (IOM, June 2011) recommended improving education for all providers, especially primary care clinicians who play a key role in pain management. It has also been stressed that all health care providers, including midlevel providers, nurses and pharmacists should keep their knowledge current by engaging in continuing education programs.

Most scientific annual meetings do not offer comprehensive review of Pain Medicine. To fulfill this unmet need, the pain medicine faculty at the University of Wisconsin School of Medicine and Public Health has been offering for the past 14 years a comprehensive pain review course taught by nationally recognized multidisciplinary expert faculty. UW pain medicine faculty is collaborating with primary care and addiction medicine faculty from UW Department of Family Medicine and Community Health, and faculty from UW Schools of Pharmacy & Nursing to design a unique educational program that will provide an intensive and up-to-date review of the field of pain medicine and related addiction topics. This course addresses the educational needs of physicians preparing for board certification or recertification in pain medicine or addiction medicine. For the primary care clinicians, pharmacists, nurses, and others, keeping in mind the time constraints, this course has been organized in such a manner as to get the maximum value for their time, by arranging topics of common interest on same days.

Target Audience
This activity has been planned by and for an interprofessional audience of clinicians, including pain medicine, addiction medicine, and primary care physicians, midlevel providers, nurses, and pharmacists interested in obtaining an overview of pain medicine. Topics include skills and practical approaches for treatment of common pain disorders, understanding issues related to the overlap of pain and substance use disorders, learning about opioid therapy management, assessment, treatment, and risk mitigation of opioid-induced harm.

Elements of Competence
This activity has been designed to change learner competence and focuses on the American Board of Medical Specialties areas of medical knowledge, patient care and procedural skills, interpersonal and communication skills, and professionalism.

This activity also focuses on the interprofessional competencies of values/ethics for IP practice, roles/responsibilities, interprofessional communication and teams/teamwork.

Objectives
- Review the anatomy and neurophysiology of pain transmission.
- Describe mechanisms of pain transmission in acute pain, chronic nociceptive pain and neuropathic pain.
- Develop effective and empathetic patient communication techniques. Learn to communicate with ‘challenging patients.’
- Describe common psychiatric problems co-occurring with chronic pain, discuss role of psychological evaluation and testing, identify barriers to treatment, and evaluate evidence for common psychological and behavioral pain treatments.
- Recognize differences in assessment and management of patients with acute and postoperative pain, chronic pain, cancer pain and end of life pain.
- Describe approaches to treating pain in children, elderly, pregnant & lactating women, patients with cancer, and in palliative care settings.
- Describe assessment and management of patients with headaches, complex regional pain syndrome, neuropathic pain, fibromyalgia, and pelvic pain.
- Perform and interpret physical examination of the spine, and extremities in patients with neck pain, back pain, shoulder pain, hip or knee pain.
- Appraise evidence for prolotherapy and other regenerative medicine treatments for musculoskeletal pain states.
- Discuss integrative medicine approaches to treating chronic pain.
- Describe drug pharmacology and clinical applications of opioid and non-opioid analogues and other drug therapies for acute and chronic pain diseases.
- Learn to safely manage chronic pain with opioid analogues: patient assessment, how to initiate, maintain, monitor compliance, taper and terminate treatment with opioids.
- Appraise role and interpretation of urine drug testing.
- Discuss the problems of prescription opioid misuse/abuse in chronic pain population.
- Articulate a strategy for pain management in patients with opioid use disorders.
- Describe current evidence for long term opioid therapy in chronic noncancer pain and adverse effects of long term opioid therapy.
- Review the anatomy, indications, and contraindications for regional anesthetic blocks, cranial nerve and spinal injections, sympathetic blocks, and other advanced pain treatments.
- Discuss management of patients with spinal cord stimulators and pain pumps.
- Discuss diagnostic workup in pain: indications and interpretations of spine imaging (plain x-rays, CT, and MRI) and electro-diagnostic testing.
- Outline a multimodal treatment plan incorporating pharmacological, rehabilitation and behavioral/psychological, and interventional treatments for common pain conditions.
- Recognize and understand ethical and medico-legal issues related to pain medicine.
- Describe changes in policies and DEA regulations pertaining to prescribing schedule II and III drugs, and record keeping.

Madison At A Glance
A progressive, cosmopolitan city of 200,000, Madison is home to the world-class University of Wisconsin, the seat of state government, and an eclectic, electric atmosphere that energizes any visitor’s stay. Built on a narrow isthmus between Lakes Monona and Mendota, Madison is one of the nation’s most scenic cities. Five area lakes and more than 200 parks provide countless recreational activities, from swimming, sailing and fishing to biking, hiking, inline skating and more. Madison offers both small town charm and a range of cultural and recreational opportunities usually found in much larger cities.

Conference Venue
The Fluno Center for Executive Education combines state-of-the-art technology with the atmosphere of a comfortable, relaxed residential setting. The center includes an auditorium, classrooms, meeting and conference space, overnight guest rooms, dining, fitness room and study pub. The interior captures the simplicity and elegance of the Arts and Crafts era, featuring quality craftsmanship, prairie style furnishings and original lithographs of designs by Frank Lloyd Wright.

Other local attractions include: State of Wisconsin Capitol, University of Wisconsin Madison campus, Chazen Museum of Art, shopping on State Street with numerous restaurants, theaters, art galleries, and the Monona Terrace Community and Convention Center inspired by Frank Lloyd Wright.
COURSE DIRECTOR
Nalini Sehgal, MD; Professor of Orthopedics and Rehabilitation; Pain Fellowship Program Director

VISITING FACULTY
Michael R. Clark, MD, MPH, MBA; Vice Chair, Clinical Affairs, Director, Pain Treatment Program, Department of Psychiatry & Behavioral Sciences, Johns Hopkins Medicine, Baltimore, MD
Oscar A. de Leon-Casasola, MD; Professor of Anesthesiology and Medicine; Senior Vice-Chair, Department of Anesthesiology, University at Buffalo, School of Medicine; Chief, Division of Pain Medicine and Professor of Oncology, Roswell Park Cancer Institute, Buffalo, NY
Nicole Higgins, MD; Assistant Professor, Northwestern University Feinberg School of Medicine, Medical Director, Obstetric Anesthesia, Department of Anesthesiology, Chicago, IL
Brett R. Stacey, MD; Medical Director, UW Center for Pain Relief; Professor, Anesthesiology & Pain Medicine; University of Washington, Seattle, WA
Arthur K. Thexton, JD, MA; Of Counsel, Gimbel, Reilly, Guerin & Brown, LLP, Milwaukee, WI
Tony L. Yaksh, PhD; Professor, Department of Anesthesiology and Professor of Pharmacology, University of California, San Diego, La Jolla, CA

UNIVERSITY OF WISCONSIN FACULTY
*Planning Committee member
Alaa Abd-Elasayed, MD; Assistant Professor, Department of Anesthesiology; Medical Director, East Pain Clinic
Miroslav “Misha” Backonja, MD; Emeritus Professor of Neurology, University of Wisconsin; Medical Director, Neuroscience, PRA Health Sciences, Salt Lake City, UT
Donna G. Blankenbaker, MD; Professor, Department of Radiology
Thomas P. Broderick, MD; Associate Professor, Department of Anesthesiology
Randall T. Brown, MD, PhD, FASAM; Associate Professor, Department of Family Medicine & Community Health; Director, University Hospital Center for Addictive Disorders; Addictionologist, Madison VA Medical Center
James F. Cleary, MD; Associate Professor, Department of Medicine (Hematology, Medical Oncology and Palliative Medicine)
June L. Dahl, PhD; Emeritus Professor of Neuroscience
Aaron M. Gilson, MS, MSSW, PhD; Research Program Manager/Senior Scientist, Pain & Policy Studies Group, Carbone Cancer Center
Paul R. Hutson, PharmD, BCOP;* Professor, School of Pharmacy
Cara R. King, DO, MS; Clinical Assistant Professor, Department of Obstetrics & Gynecology

Russell L. Lemmon, DO; Assistant Professor, Department of Family Medicine & Community Health
James W. Leonard, DO, PT;* Associate Professor, Chair Division of Rehabilitation Medicine, Department of Orthopedics and Rehabilitation
Sarah E. McAchran, MD; Associate Professor, Department of Urology
Thomas S. McDowell, MD, PhD; Associate Professor, Department of Anesthesiology
Michael M. Miller, MD; Clinical Adjunct Professor, Department of Psychiatry
Shilagh A. Mirgain, PhD; Senior Psychologist, Clinical Adjunct Assistant Professor, Department of Orthopedics and Rehabilitation
David Rabago, MD; Associate Professor, Department of Family Medicine and Community Health
Norann Richard, PhD; Clinical Psychologist, Clinical Adjunct Assistant Professor; Department of Orthopedics and Rehabilitation
Peggy S. Riley, MN, MPH, RN;* Pediatric Pain CNS, American Family Children's Hospital; Adjunct Faculty, UW School of Nursing
Nathan J. Rudin, MD, MA;* Associate Professor, Department of Orthopedics and Rehabilitation
Mark E. Schroeder, MD;* Associate Professor, Department of Anesthesiology
Susanne Seeger, MD; Clinical Associate Professor, Department of Neurology
Nalini Sehgal, MD;* Professor, Department of Orthopedics and Rehabilitation
Benjamin J. Walker, MD; Assistant Professor, Department of Anesthesiology; Director, Pediatric Pain Management
Donald A. Wiebe, PhD; Associate Professor, Director of Toxicology, Department of Pathology and Laboratory Medicine
Aleksandra E. Zgierska, MD, PhD;* Assistant Professor, Addiction Medicine, Department of Family Medicine & Community Health
Cheryl J. Kaltenberg;* Consultant
Terese M. Bailey;* Senior Outreach Specialist, Office of Continuing Professional Development in Medicine and Public Health

UNIVERSITY OF WISCONSIN–MADISON SCHOOL OF NURSING
Sandra Galles, MS, RN, APNP, GNP-BC; Program Coordinator, Continuing Education in Nursing

UNIVERSITY OF WISCONSIN–MADISON SCHOOL OF PHARMACY, DIVISION OF PHARMACY PROFESSIONAL DEVELOPMENT
Alan L. Hanson, PhD, RPh; Professor, Associate Dean for Outreach, Chair, Division of Pharmacy Professional Development
## MONDAY, AUGUST 8, 2016

**AM**
- 7:00  Registration and Breakfast
- 8:00  Welcome
- 8:15  **Acute Pain: Assessment and Management Overview – 2016**  
  Oscar A. de Leon-Casasola, MD
- 9:15  **Management of Postoperative Pain**  
  Oscar A. de Leon-Casasola, MD
- 10:15 Refreshment Break
- 10:30 **Anatomy of Pain Pathways**  
  Tony L. Yaksh, PhD
- 11:30 **Mechanisms of Post Tissue Pain States**  
  Tony L. Yaksh, PhD

**PM**
- 12:30 Lunch
- 1:30 **Intraspinal Analgesia for Acute and Chronic Pain**  
  Oscar A. de Leon-Casasola, MD
- 2:30 **Mechanisms of Neuropathic Pain States**  
  Tony L. Yaksh, PhD
- 3:45 **How Drugs Work? Receptors, Ion Channel in Pain, Channelopathies in Pain**  
  Thomas S. McDowell, MD, PhD
- 4:45 **Diagnostic Imaging in Patients with Chronic Pain of the Spine and Peripheral Joints**  
  Donna G. Blankenbaker, MD
- 5:45 Adjourn

## TUESDAY, AUGUST 9, 2016

**AM**
- 7:00  Registration and Breakfast
- 7:45 **Local Anesthetic Drugs: Pharmacology and Clinical Application**  
  Mark E. Schroeder, MD
- 8:15 **Peripheral & Regional Nerve Blocks**  
  Thomas P. Broderick, MD
- 9:15 **Sympathetic and Visceral Plexus Blocks**  
  Nalini Sehgal, MD
- 10:15 Refreshment Break
- 10:30 **Cranial Nerve Blocks and Facial Pain Syndromes**  
  Alaa Abd-Elsayed, MD
- 11:30 **Injection Procedures in Diagnosis & Treatment of Spinal Pain**  
  Nalini Sehgal, MD

**PM**
- 12:30 Lunch
- 1:30 **Pain Boards: Strategies to Improve Performance**  
  Mark E. Schroeder, MD
- 2:00 **Headache Disorders: Classification and Pathophysiology of Headaches**  
  Susanne Seeger, MD
- 2:30 **Primary Headache Disorder: Diagnosis, Treatment and Prevention**  
  Susanne Seeger, MD
- 3:30 Refreshment Break
- 3:45 **Secondary Headache Disorder**  
  Susanne Seeger, MD
- 4:15 **Diagnosis and Treatment of Peripheral and Central Neuropathic Pain Disorder**  
  Miroslav “Misha” Backonja, MD
- 5:15 Adjourn

## WEDNESDAY, AUGUST 10, 2016

**AM**
- 7:00  Breakfast
- 7:30 **Electrophysiologic Testing in Pain Assessments**  
  Nathan J. Rudin, MD, MA
- 8:15 **Treating Pain in Pregnant and Breast Feeding Women**  
  Nicole Higgins, MD
- 9:15 **Acute and Chronic Pain in the Pediatric Population**  
  Benjamin J. Walker, MD & Peggy S. Riley, MN, MPH, RN
- 10:15 Refreshment Break
- 10:30 **Pelvic Pain: Assessment and Treatment Strategies**  
  Sarah E. McAchran, MD & Cara R. King, DO, MS
- 11:30 **Challenging Pain Patients: Recognizing Patients with Somatoform Disorders, Factitious and Malingering Conditions**  
  Norann Richard, PhD

| 4:00  | Integrative Medicine Treatments for Chronic Pain                          | Russell L. Lemmon, DO                            |
| 4:45  | Adjourn                                                                  |                                                  |
Conference Dates and Fees
August 8-12, 2016
$1195 Physicians
$895 Fellows, Residents, Others (PA/NP/RN/RPh/PharmD, etc.)
The conference fee includes the cost of tuition, course materials on a USB drive, refreshments, and lunches.

Conference Location and Accommodations
The Fluno Center for Executive Education
601 University Avenue
Madison, WI 53715
Call: 877-77-FLUNO or direct at 608-441-7117
Fax: 608-441-7133
A block of rooms has been reserved at the Fluno Center. Please call the hotel directly to reserve your accommodation. The room rate is $149. The block of rooms will be held on a first-come, first-served basis and any available rooms that have not been reserved by Tuesday, July 5, 2016 will be released.

Madison, Wisconsin has one major airport (MSN), the Dane County Regional Airport. The Fluno Center is approximately 20 minutes from the airport.

Four Easy Ways To Register
On Line:  www.ocpd.wisc.edu/CourseCatalog.aspx
By Mail:  Return your completed registration form and payment
By Phone:  608-262-1397. Please call and pay by MasterCard, VISA, or American Express
By Fax:  1-800-741-7416 (in Madison Fax 265-3163)

Program Changes
Emergency situations occasionally occur and may necessitate topic or speaker change. The University of Wisconsin School of Medicine and Public Health, University of Wisconsin-Madison School of Nursing, Continuing Education in Nursing, University of Wisconsin-Madison School of Pharmacy, Division of Pharmacy Professional Development, the University of Wisconsin-Madison School of Pharmacy, the University of Wisconsin School of Medicine and Public Health, University of Wisconsin-Madison School of Nursing, Continuing Education in Nursing, University of Wisconsin-Madison School of Pharmacy reserves the right to alter or substitute a topic or speaker without prior notification.

Course Materials
All registered participants will receive an electronic copy (USB drive) of the syllabus at registration on August 8, 2016. Please bring your laptop to view the presentations.

Participants may purchase a paper copy of the syllabus for an additional fee of $85. Requests must be received by Wednesday, July 13, 2016.

If there are any concerns regarding the electronic syllabus, please contact Terese Bailey or Cheryl Kaltenberg prior to the Symposium.

Cancellations/Refund Policy
All cancellations must be received by August 4, 2016 to receive a refund. No refunds will be honored for no shows. All cancellations will be charged a processing fee of $50.

Exhibits
Representatives from pharmaceutical and equipment companies will display their products and will be available on Tuesday, August 9; Wednesday, August 10; and Thursday, August 11.

Conference Attire
Since meeting room temperatures and personal comfort levels vary, it is recommended that you bring a sweater or jacket.

For Further Information
Terese M. Bailey, Office of Continuing Professional Development in Medicine and Public Health, 750 Highland Avenue, Madison, Wisconsin 53705-2221; telephone 608-265-2046; terese.bailey@wisc.edu
Cheryl J. Kaltenberg, Consultant, kaltenberg@rehab.wisc.edu

Credit
CME Accreditation Statement
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Wisconsin School of Medicine and Public Health, the University of Wisconsin-Madison School of Nursing, Continuing Education in Nursing, and the University of Wisconsin-Madison School of Pharmacy, Division of Pharmacy Professional Development. The University of Wisconsin School of Medicine and Public Health is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement
The University of Wisconsin School of Medicine and Public Health designates this live activity for a maximum of 40.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Education Units
The University of Wisconsin-Madison, as a member of the University Continuing Education Association (UCEA), authorizes this program for 4.025 continuing education units (CEUs) or 40.25 hours.

Nursing Continuing Education (CNE)
This activity has been planned and implemented using the educational design criteria of the American Nurses Credentialing Center’s Commission on Accreditation through the joint providership of the University of Wisconsin-Madison School of Nursing, the University of Wisconsin School of Medicine and Public Health, and the University of Wisconsin-Madison School of Pharmacy. The University of Wisconsin-Madison School of Nursing is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. The University of Wisconsin-Madison School of Nursing, Continuing Education in Nursing is the Iowa Board of Nursing provider 150.

For Part II: Lifelong Learning and Self-Assessment
The Division of Pharmacy Professional Development at the University of Wisconsin-Madison is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. CE Credit will be provided separately for each of the five days of the program. Each day has been designated as a knowledge-based program. ACPE number and number of hours are listed below. There will be no partial credit awarded within each of the five days. Documented attendance as well as completion of an evaluation and assessment will be required to earn CE credit. Verification of successful completion/CE Credit will be forwarded to NASPE no later than 45 days post program.

American Board of Addiction Medicine Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

Policy On Disclosure
It is the policy of the University of Wisconsin School of Medicine and Public Health, University of Wisconsin-Madison School of Nursing, Continuing Education in Nursing and University of Wisconsin-Madison School of Pharmacy, Division of Pharmacy Professional Development, that the faculty, authors, planners, and other persons who may influence content of this CE activity disclose all relevant financial relationships with commercial interests in order to allow CE staff to identify and resolve any potential conflicts of interest. Faculty must also disclose any planned discussion of unlabeled/unapproved uses of drugs or devices during their presentation(s). Detailed disclosures will be made in the activity materials.
REGISTRATION FORM
Comprehensive Review of Pain Medicine
August 8-12, 2016
