HOT TOPICS IN INTERNAL MEDICINE 2017: The Latest Knowledge to Impact Your Practice

MAY 17-19, 2017
Madison Marriott West
Middleton, Wisconsin

Responsible Opioid Prescribing Guidelines, a 2-Hour Continuing Education Course Approved by the Wisconsin Medical Examining Board, Will Be Offered as an Optional Evening Program

PROVIDED BY
University of Wisconsin School of Medicine and Public Health
Department of Medicine
University of Wisconsin–Madison Interprofessional Continuing Education Partnership (ICEP)
TARGET AUDIENCE AND SCOPE OF PRACTICE

This activity is designed to meet the needs of practicing internists, family physicians, physician assistants, advanced practice nurses and other health professionals interested in expanding their knowledge and improving their care of patients with complex medical illness.

ELEMENTS OF COMPETENCE

This activity has been designed to change learner competence and focuses on the American Board of Medical Specialties areas of medical knowledge, and patient care and procedural skills.

This activity also focuses on the interprofessional competencies of interprofessional communication and teams/teamwork.

ACTIVITY OBJECTIVES

This activity enhances participants' knowledge, skills, attitudes and behaviors, with a focus on recent advances in preventive care, acute and chronic disease management, and enhancement of practitioner application of national priorities in health systems improvement. Topics and speakers were carefully considered to be sure that we addressed current challenges for health care issues routinely encountered by primary care providers and their health professional teams. The overall objective of this activity is to provide a comprehensive review of the most important advances in internal medicine and its subspecialties essential for all medical professionals who care for adults in the following areas:

General Internal Medicine and relevant topics in:
• Allergy, Pulmonary and Critical Care Medicine
• Cardiovascular Medicine
• Endocrinology, Diabetes and Metabolism
• Gastroenterology and Hepatology
• Geriatrics and Gerontology
• Hematology and Medical Oncology
• Infectious Disease
• Nephrology
• Rheumatology
